GRAND

Lace and White Goods House!

This Will Interest You!

We offer in every Department goods at prices that are far below all competition, and while we do not believe in deceiving the people, and giving them LOW PRICES FOR A FEW DAYS IN EVERY SIX MONTHS, we do propose to make just as low prices every day in the year as we could if we advertised twice a year a GRAND CLEARANCE SALE, and we shall from time to time, through the papers, notify the people by giving them prices in all our Departments, in which we will have no competition.

WE HAVE COME TO STAY!

Some of our competitors have given us only THREE MONTHS! WE THANK THEM FOR THAT! At the expiration of three months, we shall notify our friends how much longer we shall remain. Our money buys as many goods as anybody's. Our Buyer, who will remain in the market, will always have an EYE OPEN FOR BARGAINS AND BANKRUPT STOCKS; will buy only Choice Goods, and we will give one and all the benefit of our purchases.

IN OUR COTTON GOODS DEPARTMENT,

Our discounts pay our expenses of selling. IT IS NO TRICK to sell you Cotton Goods thirty days out of the year at COST, and charge you a profit the remainder of the time. We propose to make the same prices the year around. YOU WILL APPRECIATE IT, WE ARE SATISFIED. In all Departments, get our prices; you will be satisfied. At present, we make you only a few prices to keep you

GENTLEMEN OF THE CONVENTION: In the name and by the authority of the Irish National League of America, we meet to to convey to our kindred the message of our steadfast devotion, and to receive the sioned to acquaint us with the progress of their struggle for self-government. The memorable Philadelphia Convention or-ganized the Irish National League of Amerca. It is the auxiliary of the Irish Na-tional League of Ireland, the heir of all the hopes, and the guardian of more than the aims of that great social revolt which lifted the Irish farmer from the

nion of that race in three homes separated y the seas that divide continents, united the determination of a race to the independence of a nation.

As the Land League accomplished the relief of a class, the National League represents the aspirations and the resolve of an artire people. As the farmers have been methods for the fostering of harmony, for on harmony alone depends the successful earrying out of the League. I do not deem carrying out of the League. We warn them that until the chief object of the National League is achieved—national self-mext year I shall come again and address if they fail to encourage Irish products, to the exclusion of English goods; if they hesitate to invest in domestic industries, hey will be more odious in the sight of God and man than the landlords from whose clutch they have been released. In adopting this peaceful method of prevention, rather than waiting until the cure of force should be required, we rejected the policy of Mr. Gladstone, who could not disestablish an alien church until, according to his own avowal, explosives had resounded in Engavowal, explosives had resounded in England, and we have relied on agitation to effect public benefits, thus following the principles of Charles Stewart Parnell. No man can doubt that if the hereditary land monopolists of Great Britain fastened themselves upon our free soil, the day would inevitably come when the sturdy settlers, with arms and vengeance, would drive them off as they drove the red marauders, whose natural title was better than any that can be acquired by foreign aristocrats from native land grabbers, whether indi-

It makes that demand of all parties, and it makes it so determin hat every party must respect it. It makes that demand not in the name of the distant island whence we sprang; it makes it in the name of the American republic, of which we are a part. When asked if he had any special news from the other side, Sexton said: "No; affairs remain about the same. The land laws are badly administered. The Government appointed Land Commissioners who are in sympathy with the landlord class, and they broke the back of the Healy Act. That a tenant should be compelled to pay rent on his own improvements is the shameful thing, and the League's first effort is toward the abolishment of that system. When we accomplish that end the adjudication of rents will be taken up. No doubt that question will require long consideration."

HE HAD A TAPE-WORM .-- A well-known gentleman of this city attends a wine party nearly every night, and gets "how came Record-Union, who solicited him to vote you so" quite frequently. The first thing he does on arising is to repair to a saloon near by, kept by a friend, who gives him a morning about 7 o'clock he entered his friend's place for his usual glass. He stopped near the door to talk with a gentleman on a little business matter. The barkeeper poured out the usual goblet of water and, thinking to have a little sport, took from a glass globe on the shelf near water. He waited some time for his friend | ures they drew upon the blackboard in or to walk up to the bar, and, hearing a call der to better explain their ideas, plainly rom a back room, stepped out of the indicated that their education, in drawing saloon for a moment. A Notice They Got.—The Woodland Mail of yesterday had the following: "The Sacramento hunting party, consisting of Charles Heinrich, Thomas O'Neal, P. Flaherty and two or three others, passed through Woodland on their way home yesterday. They had a pleasant trip, although the number of deer they killed could be told with something less than three figures. They made their camp as homelike as possible by putting up a refreshment stand which served as a quarantine against rattle-snakes. If there is anything in the world a rattlesnake will not tackle it is a Sacramento hunting party. Had Charles Heinrich not eaten up all the bacon the party would have remained in the hills a while longer. They did kill one deer, but neglected to load their guns with salt, and consequently it spoiled before they could get

BOARD OF CITY TRUSTEES. China Slough to be Connected with the

Sacramento River. The Board of City Trustees met in extra ession at 10 A. M. yesterday to consider the question of connecting China slough with the Sacramento river. All the members of the Board were present, as were also several

city officials and quite a number of citizens L. F. Bassett, City Engineer, said he had less prove beneficial. made a survey of the slough, and estimated that it contained 40,000,000 gallons of water. The twelve-inch pipe, proposed to connect the slough with the river, would discharge, under an average three foot of pressure, 1,100,000 gallons every twenty-four hours. At this rate the water in the lake would be discharged to the river level in less than three weeks. He had surveyed the route where it is proposed to lay the pipe, and estimated that the same could be comleted by the end of the first week in Sep tember. The route of the pipe runs under the Central Pacific Railroad yard, is covered with several tracks, and will have to be tunneled. As the ground is all what central Committee will meet at Woodland is termed "made ground," it will have to be timbered, and the excavation, on that holding primaries and a county convenaccount, will be expensive.

WILL SHIRK NO DUTY. Mayor Brown said that the Trustees had duty to perform, which at this time could not be shirked. It was one of the times where a delay of a day or a week might be fraught with great danger to the public health. He was in favor of using the power invested in the Board, that of immediate action, and starting the work without a moment's delay. "At this time, gentlemen of the Board," he said, "we are mpassed with a grave responsibility nd when duty calls us to action let us no e found wanting, but at our post of duty, cting promptly and fearlessly for the best

nterest of the whole city. THE STREET COMMISSIONER'S VIEWS. Trustee Nielsen said he agreed with the Mayor and was in favor of prompt action He did not think it best to go through all the formalities of advertising for bids and delaying the work thereby for days and The entire ground had been gond over. The cost of the pipe, the labor necesbut in the evening was not feeling very well. About 9 o'clock she ate some oysters, but they did not agree with her. When, at a latter hour, she was found to be very ill, her mother inquired whether she had eaten or drapk anything to make the latter hour, and all the contingent expenses had been figured upon by the Trustees, the City Surveyor and contractors. What it would cost was easily figured. Mr. Touhey, a man who understood the work, had all the she had eaten or drank anything to make her sick, and she replied that she had not, except that she had taken "a little of stuff that makes me white." This led to further inquiry, and it was ascertained that | mate, and he was in favor of closing a con that she had for some time, unknown to tract with him at that price, on his giving

LET US PROCEED WITH CAUTION. Trustee Gutenberger said he hoped the Board would proceed with extreme cau-tion and not "give themselves away" to summoned as soon as it was believed that she was in danger, did all that could be done for relief, but found that he had arrived too colleagues, and was favorably impressed with the recommendations of the Board of child two years of age. Owing to the reports | Health and Vigilance Committee, still he that were circulated, Coroner Clark has knew there were some citizens who were opposed, not only to this, but to the approriation of public money for any san novement. While on his way to the Board, he was approached by some taxpayers, who against it. He believed that the lake could be connected with the river by a siphon of galvanized six-inch iron pipe, that would cost but \$300, be laid down within a week, and would, to a great extent, the desired result. He would like to have the Board consider this matter before adopt ing a more expensive plan.

THE SIPHON PROPOSITION DISCUSSED. The other Trustees and the City Surveyor ength, and dropped it into the goblet of time, and the hydraulic sketches and fig-

Trustee Gutenberger, finding his siphor proposition unpopular, insisted that if the work was to be done as proposed, it would ost in the neighborhood of \$3,000, and i hould be advertised and let to the lowest idder. He wished to be understood, however, as not standing in the way of imme ould be contrary to law

Mayor Brown and Trustee Nielsen re-erred their colleague to sections in the or-anic act that settled his doubts on that ore, and he then asserted his willingness vote for the proposition. The contract was then awarded to James Touhey for \$2 25 a lineal foot of pipe, he furnishing everything. The necessary con-ract was signed, the bond filed, and the work will commence early this morning Work will be commenced at both ends and in the middle, and as many laborers em ployed as can work to advantage.

Don't Hurry.—Because in some locali ies near Sacramento the young wild ducks and their parents are present in goodly numbers, and apparently carcless of the proximity of human beings, several perons have been intimating lately their inention to go out and "get some floppers." tention to go out and "get some floppers."

If a man desires to brand himself as a "pot-hunter" he will undertake such a trip; no one who considers himself a sportsman will shoot birds that are too young to protect themselves by flight, and can only take refuge beneath the weeds or tules, from which the dog of the shooter dislodges them. To be sure, the Legislature repealed the law protecting ducks, and diate action. He was no obstructionist, but young to protect themselves by flight, and the thought any other mode of procedure can only take refuge beneath the weeds or dislodges them. To be sure, the Legisla-ture repealed the law protecting ducks, and dislodges them. To be sure, the Legislature repealed the law protecting ducks, and any one who desires can go out and slaughter when he wishes; but the repealing of the law was a mistake, for the birds that breed here are not those that damage grain fields, and doubtless the next Legislature will correct the evil done by the repealing Act. It is to the interest of all who love to shoot that the birds shall "have a chance," and every shooter in this county should unite with the local clubs in refraining from shooting at least until the fraining from shooting at least until the middle of September, and scorn the "pot-

> STREET SPRINKLING .- The Street Com missioner says the greatest trouble he has to contend with is that of street sprinkling: ome of the sprinklers seem to take especial delight in either sprinkling too much or too little at unseemly hours. Could not the sprinklers be ulled up a little at the crossings? It is a great annoyance to pedestrians, especially women, and where there is no stone crossngs, dangerous, as the soft mud sticks to he shoes, rendering one liable to fall and perhaps break their bones; then what? By eeing to this you will confer a great boon on nany citizens, of which the writer is one. MADE HIM UNEASY .- Not long ago well-known Sacramentan, who has been married several years, but has no little "olive branches," so to speak, attended a piritual seance in this city. Several spirits

were materialized, and people present shook hands with them and identified them as friends or relatives. Presently a nedium, while acting under spirit in-luence, as was understood, turned her at ention to the gentlemen here referred to and stated that "there is a gentleman, a G. W. Ordinarily people get interested in SHOES but two or three times a year. Parents perhaps oftener. Still but few persons ever become competent judges. That is, have an unerring knowledge of leathers, workmanship or the defects which a fancy finish may hide.

The best way, therefore, is to place your trade where it is REASONABLE to believe you will not only get the fullest return for your money, but exactly what you pay for.

Customers find security in buying at this establish-

FIRST—Our Boots and Shoes are all made expressly to order, and by the best manufacturers. Money refunded for goods which may chance to turn out

SECOND—Our trade has been long established and is constantly increasing. How could it grow if the goods were not such as give wear and Satisfaction?

THIRD—We have a large country as well as city trade, justifying the keeping of widths and sizes. Thus we fit perfectly, which tends to increased comfort, neatness and durability.

FOURTH-The largest selling makes the largest buying necessary. The largest buying brings the lowest prices.

Harrisonville, Shelby County, Ky.

I am a practicing physician, residing permanently in this place. In the year 1843, when a resident of the State of Missouri, I became acquainted with the superior virtues of Dr. C. McLane's Vermifuge, prepared by you. At some leisure moment I will send you the result of an experiment I made with one vial, in expelling upwards of 900 worms.

L. CARTER, M. D.

New York.

I do hereby certify to the public, that a child of mine, 4 years old, being troubled with worms, I was induced to purchase a bottle of Dr. C. Mc-Lane's Vermifuge, prepared by Fleming Bros., of Pittsburgh, Pa., which I administered; and the result was, it brought away an immense number of worms in bunches and strings; many had the appearance of being cut to pieces. My child is now enjoying most excellent health. I take pleasure in recommending it to both young and old as one of the best medicines I ever used.

MRS. ANN JEMISON, 38 Ninth street.

Mrs. Quigby, No. 182 Essex street, New York, writes us that she had a child which had been unwell for better than two months: she procured a bottle of Dr. C. McLane's Vermijuge, and administered it. The child passed a large quantity of worms.
